

Accessibility

These checks highlight opportunities to [improve the accessibility of your web app](#). Automatic detection can only detect a subset of issues and does not guarantee the accessibility of your web app, so [manual testing](#) is also encouraged.

AUDIO AND VIDEO

- ☐ `<video>` elements contain a `<track>` element with `[kind="captions"]`

These are opportunities to provide alternative content for audio and video. This may improve the experience for users with hearing or vision impairments.
